

## LOGÍSTICA BRASIL is an association that strongly believes in Brazil's potential.

We are an association created to **work on the interests of shippers, exporters and importers companies**. We understand that these are the real users of ports, transport and logistics.

Our efficiency is very well recognized, and it attracts companies and entities from different segments of the sector:

- Brazilian shipping companies;
- port operators;
- road transporters;
- customs brokers;
- oil and gas business companies, including maritime and port support;
- unions and associations, among others.

**THERE ARE THOUSAND OF COMPANIES** linked to our association directly and indirectly, consolidating our great representation.

**THOUSANDS OF TONS PER YEAR** are moved and shipped, which demonstrate the strength of our associates.

**LOGÍSTICA BRASIL** has the **vision of a business person**, as we provide fast decisions and effectiveness in actions, without the well-known bureaucracy of entities that work in a rigid manner.

Our results demonstrate how important it is to work with quick responses. Our strategic acts gives us an

enormous capacity to identify opportunities.

With a **focus on the public interest**, we can reach the balance in the sector, building solid relationships for our associates with the public authorities and the private sector

## Actions and results

---

Our history has demonstrated **significant achievements to Brazil** in the **maritime transport, ports and national and international logistics segments**. With **active and constant participation** in executive and legislative public hearings, we deal with diverse subjects ranging from concessions, leases and authorizations, to laws and infra-legal regulations. The association also works strongly on a theme that is transversal to all activities in the sector, which is **Public Safety**.

LOGÍSTICA BRASIL is being invited to participate in the main debates of the sector, whether in the executive or legislative branches, including external control agencies.

LOGISTICA BRASIL has become a reference among business person in the sector and the media for its serious, focused and consistent work.

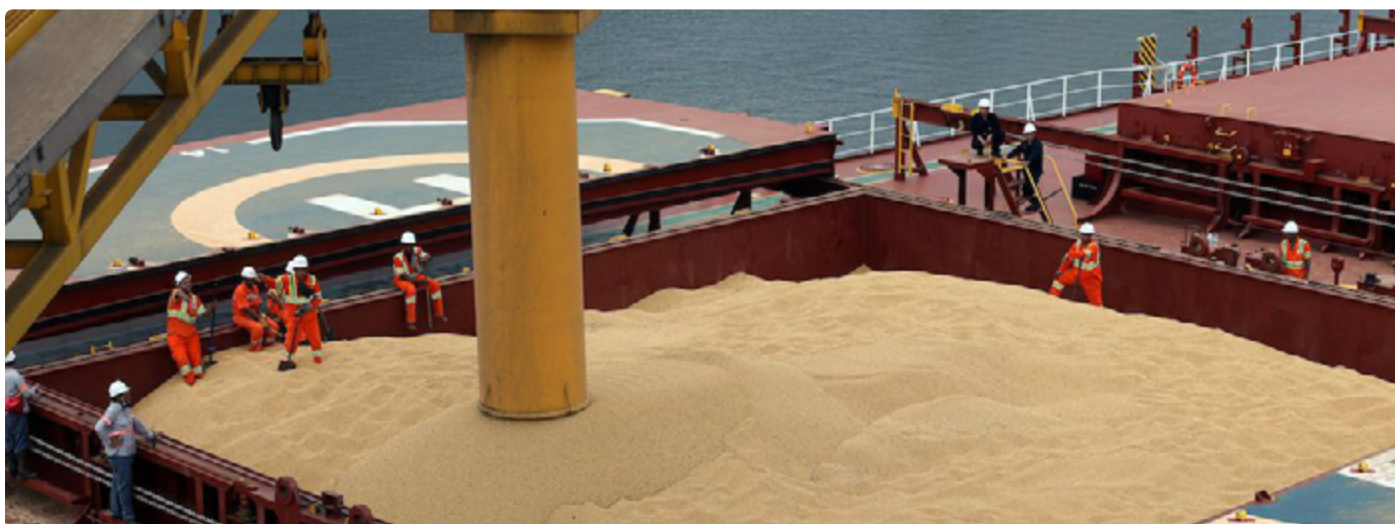

## We are always active in Brasilia

LOGÍSTICA BRASIL offers to its associates a better way to have a **relation with the government**. An important work which objective is to maintain a two-way communication channel with government spheres, establishing solid links with public authorities, respecting our compliance.

## Success cases

We are very focused on regulations. In the past recent years, **all regulations on the rights and duties of ports and maritime transport end users have been done with the consulting of LOGÍSTICA BRASIL**. We have changed the relationships between terminals and shipowners with cargo owners. We have promoted changes in relevant laws that regulate the market, preventing abuses and cartelization in shipping, as occurred with the “BR do Mar”.

**Join us and be part of this history of  
LOGÍSTICA BRASIL achievements.**
